## Preface

The following catalogue of musical compositions by the gifted and prolific Englishman, Billy Mayerl, is the product of some twenty years' labour of love. As a composer of rhythmic piano music, Mayerl has no equal. His piano compositions, whether original works or transcriptions, are uniformly imaginative, melodic and brilliantly-scored. The published songs, with various collaborating lyricists, demonstrate a remarkable melodic gift. Mayerl was truly the "all-round" musician.

This list is as complete as I can make it at present. Publishers' plate numbers are given in most cases, unless I've been unable to acquire the music in question. These plate numbers are useful ONLY as indicators of publishing chronology, as the original metal "masters", in the vast majority of cases, no longer exist. I have purposely avoided including reprints or collections of Mayerl's music, issued right after his death (Sam Fox (US) - a few reprints in the early sixties) and within the last twenty years, in an attempt to be as "period"-oriented as possible. It is sincerely hoped that this catalogue will be of good use to archivists, collectors, historians and all kindred spirit Mayerl devotees. May the current revival flourish for years to come!

To close this short preface: any additions the reader can make to this compilation are eagerly anticipated. Please write to me care of the Editor c/o 'Shellwood', St.Leonards Rd., Thames Ditton, Surrey KT7 0RN.

P.S. Profuse thanks to all my British friends who have helped me unearth various Mayerl treasures over the years and to a growing number of buddies on this side of the Atlantic who share my passion for the music of this extraordinarily gifted pianist/composer. The quest continues !

P.P.S. Publishing Note : Keith Prowse 'Hire' items are listed in the BBC Music Library catalogue. I am assuming they exist in manuscript only, as they are not to be found in the EMI archives. As I have not actually seen these BBC holdings, I decided to place said items in an 'undated' category. Campbell Connelly 'controls' several unpublished items, all of which, I suspect, were handled by Cinephonic in the late nineteen-thirties.
